How it works

1. **Post a Task** — Describe what you need done and how much you're willing to pay.
2. **Runners hop to it** — Our network of background-checked Runners will make offers on your Task.
3. **Pay when it's done** — we assign a Runner when an offer meets your price, and you pay only after they've completed your Task.

Problemstellung

Person möchte eine bestimmte Sache erledigen, hat aber nicht die Möglichkeit dazu.

Zielsetzung

Person möchte die Sache erledigt haben. Dafür kann sie sich Hilfe besorgen.

Anmeldung bei taskrabbit, task posten und innerhalb weniger Minuten melden sich Leute, welche bereit sind die Aufgabe zu übernehmen.

Die Auftragstellende Person kann sich Leute nach Bewertung heraussuchen und akzeptieren.

Hat der Runner die Aufgabe zur Zufriedenheit erfüllt wird er gut Bewertet und bezahlt.

Fazit

Insgesamt ist TaskRabbit eine Art Dienstleistung ähnlich wie eBay und die Post gemischt.

Man Bewertet die Runner nach ihrer Qualität und Entlohnt sie. Wobei die Runner selbst Versuchen müssen einen Auftrag zu ergattern.
